

Thanks to Richard Majewski, owner of Allied Excavating, Inc. in Warwick, a beautiful red maple tree was planted in the Village Park. The tree will perpetuate the memory of Caitlin Hammaren, who was tragically killed while attending college at Virginia Tech. Her parents graciously agreed to take part in the planting and placed the first shovels of ground into the hole. A memorial plaque has been ordered and will be formally dedicated as soon as we receive it. Caitlin was a 2005 graduate of Minisink Valley High School who lived with her family in Westtown. The Village of Unionville sends its deepest sympathies to them as well as to the families of all the victims of that horrible day, and thank them for allowing us to help keep her memory alive with this tree in our memorial park.
